Reviews

These kinds of ebook is almost everything and got me to searching forward and a lot more. It usually does not price excessive. Its been written in an exceedingly basic way and is particularly only following i finished reading through this pdf through which in fact modified me, alter the way i really believe.

Createspace, United States, 2011. Paperback. Book Condition: New. 254 x 203 mm. Language: English . Brand New Book ***** Print on Demand *****.Cleverly written for the novice digital camera user, Digital Photography for the Impatient appeals to the seasoned film photographer as well. Author Ed Snyder writes from the perspective that no one wants to read the manual, humorously distilling all the bells and whistles of modern digital cameras into very basic concepts. Whether you already own a digital camera (and are less than thrilled with the results) or are considering buying one, this book is meant to help you get the most out of any camera and to choose the one that's right for you! Handsomely illustrated with practical examples, the book is divided into two parts. The first half tackles photography basics -- Light Sensitivity, Aperture, Focus, and Shutter Speed - the only things you really need to know to make stunning pictures with any camera! The second half explores current technology and how cameras can help you shoot better pictures. Topics include flash photography, photo composition, and editing your photos on a home computer. Digital Photography for the Impatient is meant to help you use a camera effectively so you can shoot the things you want -- weddings, the dent in your car, that cool sunset. The secondary purpose of the book is to help those who are no strangers to a camera, but are uneasy about all this new technology. The digital age has made it necessary for many experienced photographers to relearn their craft. Snyder's book is in response to those who've asked him for photographic advice brought on by this technology change. It is a well-researched effort, meant to benefit photographers at all skill levels. Throughout the book you'll find...
