Estuarine Use Determination A nationwide list of commercial and recreational species that use estuaries in any stage of their life cycle was developed during the first phase of this project. The list includes species identified in Fishery Management Plans ( FMP ), non-FMP commercial 8 and recreational species, and forage species such as fish, mollusks, and crustaceans. It is important to note that the species used to generate the statistics in this paper include both estuary-dependent and other estuary-using species ( also referenced in scientific literature as estuarine opportunists, estuarine-related, or estuarine-marine species ). An evaluation of the economic difference between obligate and facultative estuarine species is outside the scope of this study, mainly due to a lack of information regarding the degree to which many species use estuarine habitats ( see Able 2005 for an in-depth discussion of estuary dependence and the associated information gaps ). Estuary use by commercial and recreational fish and shellfish was determined via two steps: ( 1 ) the authors reviewed information on species relative abundance,...
