

Social Motivations For Codeswitching: Evidence from Africa (Oxford Studies in Language Contact)

By Myers-Scotton, Carol

Oxford University Press, 1995. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service!

Summary: "Deserves to be congratulated not only for her findings, but for so clearly revealing where a next step could profitably be taken in this interdisciplinary research area that has for so long been of interest to linguists, anthropologists, and sociologists." Joshua A. Fishman in *Anthropological Linguistics* "Myers-Scotton's model is a unique theoretical synthesis that organizes and explains - in one coherent albeit eclectic framework - most of the behavior that CS scholars have been discussing and theorizing about for decades. An important work written engagingly by a notable sociolinguist who has been researching and writing on codeswitching for more than 20 years. Required reading for teachers and students who research codeswitching phenomena, and for allsociolinguists and discourse analysts." Walter F. Edwards in *Language and Society* 'the book presents a more elaborated and refined version of the earlier proposals. Myers-Scotton's analysis is to be welcomed for its attempt to provide a more systematic and unified framework than previous descriptions of the motivations for code-switching. Her account provides many insights, all of them well illustrated. Myers-Scotton is to be credited with having produced a valuable and...
