Reviews

This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Plural Publishing Inc, United States, 2010. Mixed media product. Book Condition: New. 279 x 229 mm. Language: English . Brand New Book. This book is designed for conducting one-on-one counseling. While the PTM counseling involves both audiologic and psychologic counseling, this book focuses on the audiologic counseling. Normally, this book would be used for patients who require PTM Level 5 Individualized Support. However, it can be used for any patient who requires individual counseling to learn how to manage reactions to tinnitus. The Counseling Guide is used like a flip chart, but laid flat on a table between clinician and patient. One side provides bulleted talking points to aid the clinician in describing the concepts. The other side faces the patient and shows simplified text and illustrations to facilitate comprehension. The Counseling Guide, which is almost 300 pages long, includes three sections. The first section is a complete description of the PTM audiologic counseling, which corresponds to the education that is provided during the first Level 3 group workshop. The second section corresponds to the second Level 3 group workshop, as a follow-up to the first workshop. The third section is a counseling guide for patients who suffer from reduced sound tolerance (hyperacusis). A 76-minute audio CD is included with the Counseling Guide. The CD contains a tutorial of how sound can be used to manage tinnitus, followed by samples of different sounds. Clinicians can use the CD to supplement the PTM counseling.
