ICT Skills-base for Africa's Development

By Augusto Quiala Maquengo

GRIN Verlag Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 210x148x6 mm. This item is printed on demand - Print on Demand Neuware - Doctoral Thesis / Dissertation from the year 2009 in the subject Computer Science - Applied, grade: 3.89, Atlantic International University (Faculty of Economics), course: Economic Development, language: English, abstract: Executive Summary This assessment outlines the challenges of retaining and attracting high-skilled professionals, briefly assesses both the brain gain and the brain drain in the health sector, and examines some of the existing programs that encourage return. It provides an overview of the role of the Diaspora in fostering the transfer of knowledge, technology, capital, and remittances. The assessment also looks into the policy implications in each African country and how those policies can attract the Diaspora that is well established in the Western countries. It draws attention to the principle role of ICT for development bringing insights on the skills needed to embark on a development agenda by attracting the best trained African highly skilled Professionals in the areas. Another essential element has been the economic development of many previously less developed countries. As a result, many goods previously produced primarily by lower-skilled factory workers in the...
