Mountain Gorillas Three Decades of Research at Karisoke Cambridge Studies in Biological and Evolutionary Anthropology

By -

Cambridge University Press. Paperback. Book Condition: New. Paperback. 448 pages. Dimensions: 8.8in. x 5.8in. x 1.1in. Over thirty years ago, Dian Fossey established the Karisoke Research Center in Rwanda to study the behavior and ecology of mountain gorillas. Some of the offspring of the gorillas first studied by Fossey are still being observed today and the long-term observations on known individuals, from birth to death, and data on social behavior within and among the groups have led to an understanding of many aspects of gorilla social structure. Written by scientists who have worked at Karisoke over the years, this book highlights and summarizes what we have learned about the behavior, ecology, and conservation of the genus Gorilla and two other recognized subspecies and provides some comparisons with other gorilla populations elsewhere in Africa. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

Certainly, this is the finest job by any publisher. I was able to comprehend almost everything out of this published e-book. You won't truly feel monotony at any moment of the time (that's what catalogues are for concerning should you question me).

-- **Graciela Emard**

This publication can be really worth a go through, and superior to other. It is amongst the most amazing publication we have go through. You won't feel monotony at anytime of your own time (that's what catalogues are for about when you request me).
